Professional Summary

- MERN Stack Developer with hands-on experience of 6 months building full-stack applications using React.js, Node.js, Express.js, and MongoDB.
- Proficient in creating responsive UI, REST APIs, authentication systems, and deploying web applications on cloud platforms.
- Strong collaboration and problem-solving skills with a commitment to writing clean, maintainable code.

Education

Integral University, Lucknow   **2022 − 2024**
MCA, Master of Computer Applications (CGPA: 7.7)   *Lucknow, U.P*

Experience

Edoro Technologies LLP   **Mar 2024 − Present**
MERN Stack Developer   *Lucknow, U.P*

- Worked as a Asst. MERN Stack Developer at Edoro Technologies LLP, where I gained hands-on experience in developing and deploying full-stack web applications
- Working on live MERN stack projects including BookStore, Task Management System, and CheapFareMart(USA-based Flight and Car Ticket Booking Application), with a strong focus on user authentication and order processing. Experienced in building RESTful APIs, managing MongoDB data models, and implementing secure, scalable backend solutions.
- Collaborated with the development team to debug issues, improve code quality, and enhance overall application performance and scalability.
- Developed and implemented seamless data flow between frontend and backend, and ensured responsive UI/UX using React.js and Tailwind CSS.

Technical Skills

Technologies: HTML5, CSS3, Vanilla CSS, JavaScript, MongoDB
Frameworks/Libraries: React, Express.js, Node.js, Tailwind CSS, JWT
Tools: GitHub, VS Code, Render, Netlify, Vercel
Soft Skills: Communication, Teamwork, Problem-solving, Adaptability

Projects

BookStore E-Commerce Website (MERN Stack) *MongoDB, Express.js, React, Node.js*

- Developed a responsive online bookstore with user and admin panels.
- Implemented authentication, book listing, category filtering, wishlist, and cart functionality.
- Built a "My Account" section with Profile, Orders, Wishlist, and Address management.
- Created an admin dashboard for managing books and orders in real time.
- Integrated EmailJS-powered contact form and responsive UI using Tailwind CSS and Flowbite.
- Used REST APIs and React Context for full CRUD operations across the app.

Task Management System *MongoDB | Express | React Vite | Node.js | JWT*

- Developed a full-stack task manager with secure login/logout using JWT and protected routes.
- Implemented CRUD operations for managing tasks (Create, Read, Update, Delete).
- Enabled real-time task status updates (New Task, Pending, Completed, Cancelled).
- Built a responsive UI using React Hooks and styled with Tailwind CSS.
- Created RESTful APIs with Express.js and connected to MongoDB using Mongoose.
- Integrated toast notifications for feedback on user actions.

Extracurricular Activities

Volunteer, Integral University

- Mentored junior students and assisted in organizing technical events.
